

JOURN^ΛYA^Λ

ELEVATING YOUR BUSINESS

By Caitlyn Carney

AGENDA

Acquire & Clean

- Adding data
- Handle Outliers
- Create new features

Explore CIC Data

- Briefly elaborate
- on what you want
- to discuss.

Explore Jornaya's Data

- Briefly elaborate
- on what you want
- to discuss.

Recommendations

- What not to purchase
- Who not to contact
- Incorporate Jornaya's Data

EXECUTIVE SUMMARY

WHAT WE WILL BE COVERING

Hypothesis

Jornaya's data will elevate CIC's business.

Goals

Find drivers of purchases

Form recommendations and policies regarding lead purchases and contacting.

Findings

Jornaya's data increases sales and elevates the existing business model.

Recommend

Leads to stop purchasing.

New policy regarding lead contacting.

ACQUIRE & PREPARE

Acquire Data

Added Jornaya data to CIC's:

- lead_duration
- field_count
- lead_age
- competitors

Outliers

Removed outliers from
lead_age feature
using IQR.

Dummy Column

Broke up the following columns to
do an in depth analysis of each
outcome:

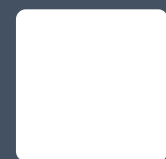

- provider
- competitors

FINDINGS

Sales

Right now only 43.87% of lead purchases convert to sales.

Lost Revenue

CIC has lost \$27,950 due to unsuccessful lead purchases.

Providers

Provider C mainly sells \$50 leads all resulting in 0 sales.

Provider A has the highest sale potential.

Provider B has the lowest sale poptential.

Lead Times

Leads that take more than 30 seconds to complete result in 0 sales.

Leads that take longer thank 1k seconds to send result in 0 sales.

RECOMMENDATIONS

Provider C

No longer purchasing their \$50 leads.

Provider B

Only purchase their \$25 leads.

Online Form

Only purchase leads where less than 1000 seconds were used to complete the form.

Call Prioritization

Prioritize contacting leads that were received within 30 seconds.
